Facilitated by Allen Briskin of Davis, Wright, Tremaine, LLP

1. Why are you (why is your organization) participating in the effort to organize a regional health information exchange?
2. What are the major objectives and/or gains to be achieved by a regional health information exchange?
3. What are likely to be the key issues in the organization or use of such an exchange in the next one, five and/or ten years (*e.g.*, budget, membership, growth, others)?
4. What should be the overall mission and specific priorities of the exchange's governing body?
5. Which people and organizations do you believe should participate in the exchange (*e.g.*, hospitals, physicians, clinics, payors, others) and in the exchange's governance structure, and why?
6. Who else needs to be involved in the planning process?
